MODEL WATER RESOURCE DISTRICT BYLAW (June 22, 1981) COD PLANNING AND ECONOMIC DEVELOPMENT COMMISSN

A. Findings

The Town of______________________finds that—

1. The groundwater underlying this town is the sole source of its « and future water supply, including drinking water;
2. The groundwater aquifer is integrally connected with, and flov the surface waters, lakes, streams, and coastal estuaries which coi significant recreational and economic resources of the town used fo ing and other water-related recreation, shellfishing, and fishing;
3. Accidental spills and discharges of petroleum products and othc and hazardous materials have repeatedly threatened the quality < groundwater supplies and related water resources on Cape Cod other Massachusetts towns, posing potential public health and safe ards and threatening economic losses to the affected communities;
4. Unless preventive measures are adopted to prohibit discharge c and hazardous materials and to control their storage within the tow ther spills and discharges of such materials will predictably occur, ar greater frequency and degree of hazard by reason of increasing co tion, commercial and industrial development, population, and vel traffic in the Town of______________________and on Cape C
5. The foregoing conclusions are confirmed by findings set forth in t vironmental Impact Statement and Water Quality Management P Cape Cod (September 1978), prepared by the Cape Cod Planning ar nomic Development Commission pursuant to Section 208 of the I Clean Waters Act; by the report entitled Chemical Contamination tember 1979), prepared by the Special Legislative Commission on
